FROM THE AMERICAN PEOPLE

Traviz

Supplier Apps

USAID Oceans and Fisheries Partnership (USAID Oceans)

OBJECTIVE

As part USAID Oceans to development eCDTS in fisheries (from At sea capture – Landing – land transport - Processor - Export),

“Traviz “ is develop as data electronic recorder, to capture traceability documentation from small scale fisher at landing point.

USAID
FROM THE AMERICAN PEOPLE

Traviz
Supplier Apps

Target User

- The target user of Traviz is “ First buyer Or Fish Supplier” who buy or collect fish form small scale fisher

USAID
FROM THE AMERICAN PEOPLE

Traviz
Supplier Apps

What is capabilities

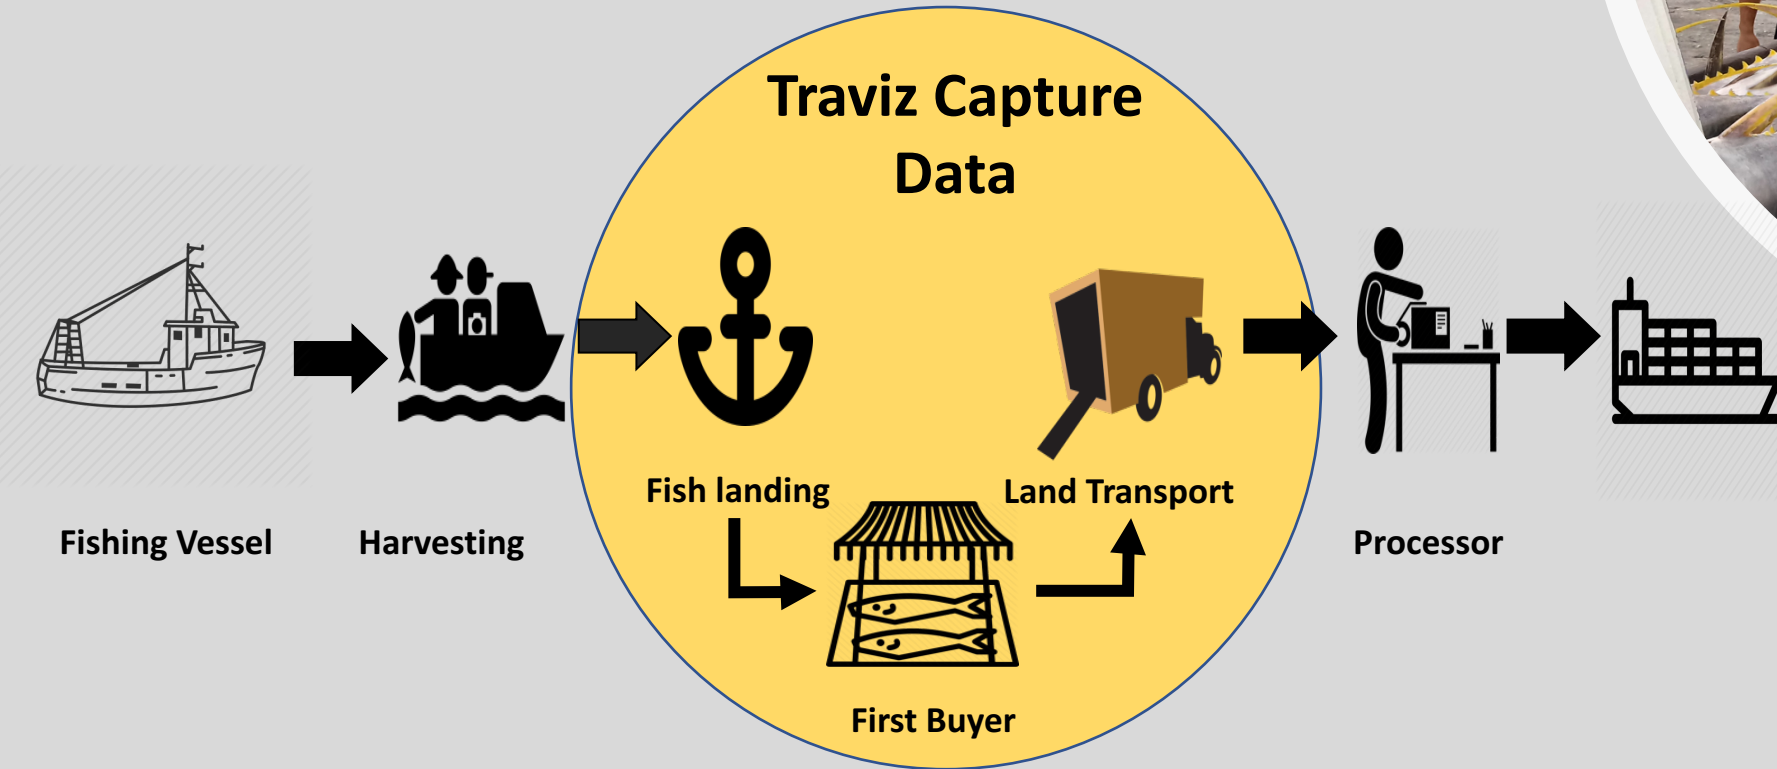

- Recording traceability KDEs, at landing point
- Transfer The traceability data to Next supply chain application (Tracetales)
- Provide additional simple business management for user to record their day to day operation , such as loan management and profit,loss, margin overview
- Capabilities to work offline to face changing internet connection on the site, (sync to server once online)
- Comply with local authority regulation (STSIPP) and International regulation (US, EU) requirement
- Multi language
